

8. Add to seasoning and condiments

Maintain the delicate flavor of soy sauce and other highly seasoned sauces by removing one-third to one-fourth of the usual amount by diluting with Kangen Water™.

9. Pre-boil vegetables to enhance the flavor of the dish

Use to enhance the flavor of burdock, onions, bamboo shoots, etc., by pre-boiling.

10. Blanch green vegetables

Blanching spinach, string beans, broccoli, and other vegetables in Kangen Water™ will preserve the vibrant green color of these vegetables.

11. Leave liver and other meats to soak in Kangen Water™

If you leave liver, mutton, and other meats which have a bad odor to soak for 20-30 minutes, it will drain off blood and reduce strong smells.

12. Boiled foods

The natural flavor of the ingredients will be drawn out and they will cook to a tender consistency. Make sure to reduce the amount of seasoning, as less seasoning is required when using Kangen Water™.

13. Heat conduction

Kangen Water™ improves the conduction of heat cutting down on cooking time, and lowering your utility bills. Take care not to overcook as your dish will be done more quickly than usual.

14. Use to water both plants and flowers (Extends the freshness and life of the plants, also restores the health of sick plants. Use pH 9.0)

Take note that certain varieties of flowering plants, trees and shrubs, such as roses and blueberries, favor an acidic environment. For such plants, spray the stem, or water the plant with a solution which has been diluted by 300%.

15. Use Water to germinate seeds, and then water the plants that have recently germinated.

Kangen Water™ stimulates germination and improves seedling development.

16. As drinking water for animals and pets

Your animals' health will improve dramatically. Unpleasant body odor will decrease, as well as the odor of feces and urine.

17. For dyeing

Excellent for dyeing clothing, as well as other craft projects. You will love the vibrant colors obtained when using the water.

18. To maintain good health

Through continuous use, the acidic tendency of your body can be gradually corrected to an alkaline constitution. For the improvement of your health: Drink at least two liters a day in order to gradually change from an acidic constitution to a slightly alkaline constitution.

Calcium: Continued use will replenish your calcium levels. Helps to reduce irritability, and improves the general health of children.

Colon cleansing: Warm the water to body temperature and use colon cleansing unit to remove accumulated debris and waste.

Other uses: Slows down aging, stabilizes body temperature

One theory is that this water reduces free radicals. Recently, this water has been acclaimed as "Free Radical Water."
